For all of you who've gotten the OGS Newsletter, Vol. 6, No. 2 --
There is an error in a reference to David Madison Shuler's Family
Bible,
probably because the original hasn't been turned over yet and the
reference was
taken from a xerox, which might have been smudgy. The note on page 26
says that
David Madison Shuler was born in 1815 and died in a Union prison camp
on Hart's
Island, NY, at the age of 50 if his birthdate is correct, 52 if his
death
information is correct, on May 5th 1865.

My own copy (my mother has the original, I'll be turning it over to
Gene for
the archives soon) is fortunately clear. It gives the birth date of
David
Madison Shuler as 30 Sep 1813.
The death reference reads:
"David M. Shuler died May 5th 1865 in prison at "New York" on Harts
Island, in
the 52nd year of his age."

Jim,

My husband's Teagues are from Arkansas and Tennessee, so Culler can certainly be forgiven for not covering them. Also, I agree that it is a very useful book, including lists of public officials, census data, and a great deal of other information. I am perplexed, however, about the source of his information that "Col." David Shuler's parents were Alfred and Julia T. Connor Shuler (p.338). There is certainly some question about David Shuler's parentage, but the information I have is that Alfred and Julia T. Connor Shuler were both born *after* this David Shuler. (They did have a son named David, decades after "Col." David's birth.) As one of Col. David's descendants, I can admit that we might be odd, but not quite as odd as descent from a temporally reversed lineage might suggest.

More seriously, it would be interesting to know what information led Culler astray. Also, if anyone does have solid information on this I'd love to know about it. Brothers Daniel Madison Shuler (b. ca. 1788) and David Shuler (b. 21 Aug 1794) are presumed, but not proven so far as I know, to be the sons of David Shuler, son of John Daniel Shuler. Beverly Shuler has indicated to me that identification of the older David's wife as Lavonia Snell is entirely speculative. Does anyone have any information to contribute to this issue?

Hi Lori,

Isn't it wonderful to be descended from these folks?

Anyway, I will leave answers to most of your questions to those better qualified to respond, especially Beverly Shuler, who has enlightened me on some

important problems in the Shuler et al data. However, some basics . .

The LDS files often have duplicate entries because multiple people submit the same, or worse yet only minimally different data.

On the spelling -- Orangeburgh District, Orangeburg County. The District is historically older.

On the Bendicht Shulers -- they are multiple. All are reported by Christine Weaver Shuler, who paid a genealogist in Switzerland to do some of this research. I suspect that most of the folks on this list who want this info have it from her book, The History of the Shuler Family, so I won't repeat it here. However, I'll send you separately a family report based on her report. I haven't personally seen any of the primary data on it, so can't verify its accuracy.

On John Daniel Shuler's kids -- he had a Lewis, who had a Lewis Jr. Again, Beverly Shuler has abundant info on this group.

Now, you have family lore on John Daniel's children?? There is a daughter whose name I don't have, perhaps your Mildred Sophia. However, if your

family lore
goes back that far, does it perhaps cover who John Daniel's son David
married, and the names of his children? If so, you just can't imagine
how
delightful it would be for someone like myself lucky enough to be
descended
from son David either twice or not at all, depending on the answer to
part B of
this question.

Well, I'll get out of the way and let some of those with more primary
data on
early Shulers, etc., take over.

Hi all,

Just made my first visit to the local LDS FHC. I searched the Ancestral Files as recommended by the helpful librarian. What I found was useful, but also confusing. Thus the following questions -- primarily for those of you having information on S[C]HULER, DANTZLER, CARN, FREDERICK:

Rebecca FREDERICK (1792-3) is recorded as having two husbands, Lewis SHULER followed by Lewis CARN Sr. She had several children with Lewis SHULER, amongst them Lewis SHULER Jr. She had one child with Lewis CARN, Francena CARN. Therefore, Lewis SHULER Jr. and Francena CARN were half-siblings. Yet the AF lists Lewis Jr. & Francena as husband and wife. Is this possible? Is this legal? The plot thickens ... this same Lewis SHULER Jr. is listed elsewhere as the son of Joh[an]n Daniel SHULER -- not terribly likely, I'm guessing, due to the Jr. As if this family weren't challenging enough, Mildred Sophia S[C]HULER, their eldest daughter according to family lore, doesn't exist in the AF.

Several families list children with the same names repeatedly. Lewis J. CARN (1720) & Catherine Elizabeth Stobel [Strubel] (1724) had two sons named John Frederick -- one born 9 MAR 1748, one born 9 MAR 1758. Is this the case or is this a typo? In this same family, the baptism date of Elizabeth Barbara Carn (born 1750) is listed as 21 Mar 1756. A typo again, I'm thinking. Why would one wait 6 years to baptize a child?

On to the blessed union of [Hans] Jacob DANTZLER (1742) and Elizabeth

Lori Christian, 01:26 PM 2/8/96 -, questions galore! [exceedingly

Barbara CARN (1750) ... were their children born in Dorchester or Orangeburgh? Does it make a difference? I'm thinking a lesson in SC geography is useful right about now. Anyone care to instruct me? Also, I could use a spelling lesson. Orangeburg or Orangeburgh? Same family: daughter Ann[e] DANTZLER born 1788 or 1786? Another typo perhaps.

While we're on DOB, I have two very different dates for Bendicht S[C]HULER -- 1555 or 1581? 1555 seems most plausible. This same Bendicht S[C]HULER (1555?) and Elsbeth STUFFENEGGER (1555?) had two daughters named Elsbeth. In this case I think the second was born after the first died. Was this common?

Likewise, Hans Georg S[C]HULER (1691) and Catherina Anna HESSY (1691?) had a Susan & 3 Susannahs?!?!? Does anyone have a family group record on this bunch?

More troublesome S[C]HULERS ... Joh[an]n Daniel S[C]HULER (1735) and Mary Barbara ULMER (1735) had two Davids, two Daniels, two Barbaras. What gives? This same Joh[an]n Daniel S[C]HULER is recorded as being born in Bern, Switzerland and baptized the same day in Waldmehr, Germany. On a current map, Bern is about 50 miles from the German border. I'm confused.

And finally (aren't you glad), an APB for missing persons. Darius Lehre DANTZLER (1822-1864), son of Henry DANTZLER (18?3-1855), husband of Mildred Sophia S[C]HULER (1828-1903), father of Margaret Rebecca DANTZLER (1852-1922). Any information on the above individuals would be greatly appreciated.

Thanks for your time and forbearance.

Beverly,

Thanks so much for the Shuler information from Waldmohr! If the entries are what they look like it pretty much takes care of the problem of the illusory Hans Henrich Shuler, since Hans Nicholas and Mary Barbara are accounted for as Hans George's children (even if Mary Barbara wasn't daughter of the exceedingly generous Ann Margaret). The Susan and Ann Elizabeth listed as children of Hans Henrich by Christine Weaver Shuler are almost certainly references to Hans George's Susanna Elisabetha. This leaves only the wife of Bernard Snell, name unknown, and Phillip Jacob, who needn't have been that close a relative, unaccounted for.

Great. Thanks again.

Hi! I have put on indefinite loan, the Church Register from Waldmohr, Germany, from 1690(approx.) to 1783.

Info I found includes two more children for Hans Georg and Anna Margaretha SCHULER. There is some question that they are who I say they are. Will anyone volunteer to write a letter in good German for me? We got the LDS film, but it was printed material. We need a Xerox of the two entries in the original handwriting. All of the SCHULER entries plus two:

12 Mar. 1724, Catharina Magdalena, dau. of Johann Georg SCHUKER and Anna Margaretha N.N. residents of Waldmohr.

3 October (or is it old style?)1726, b. Johann Nickel, sohn of Georg SCHAFFER and Anna Margaretha N.N., residents of Waldmohr.

12 May 1728, born Susannah Elizabetha dau of Georg Schuler and Anna Margaretha N.N., residents of Waldmohr.

21 Jan. 1731, bapt. Georg Nickel, son of Hans Georg Schuler and Anna Margaretha, N.N., residents of Waldmohr.

25 Jan. (or is it old style?)1733, bapt. Maria Barbara, daughter of Johann Georg SCHUHLER (U)GM and N.N. residents of Waldmohr.

14 May 1735, bapt. Johann Daniel, son of Hans Georg Schuler GM and Anna Margaretha N.N., residents of Waldmohr.

Does this not fit in perfectly??

GM means gemeinsmannes or tenant farmer.

(U) means illegitimate. If illegitimate, she sure had an understanding step-mother.

N.N., as I have said before, means the pastor did not know the maiden name of the mother.

There is no marriage for them in the register, no deaths of their family.

Peter SCHULER, aged 81, from Switzerland, died in Waldmohr buried 11 Feb. 1752.

Christian SCHULER, aged 61, cow herder, died in Waldmohr buried 14 Oct. 1765.

No more Schuler entries that I found.

There were seven little villages (?) in the area, mentioned by the Register. They are: Waldmohr, Jagersburg, Dunzweiler, Breitenburg, Niederbexbach, Krahenberg and Limbach. I happen to know that

Krahenberg also has a Church Register, so must order it next.

Familiar names in the register include: HESS of Dunz., SCHAUMLOFFEL, school caretaker, of Waldmohr, SCHAFFER of Waldmohr, HEYEL (Hiley) of Waldmohr, EMIG (Amick?), FRIEDERICH, FRITZ, GRIMM, HAYM, HOFFMAN, KAPPES, JUNG (Young), from Dunzweiler, WANNENMACHER, KOLLER, STRICKER, KERN, KUFFER/KIEFFER (John Theobald), WINKLER, (these two to Purysburg, I think), STROBEL from Limbach and Bundenbach' MEYER from Niederbexbach, Mathias LAUER (2), one of Krahenberg, father-in-law of Jacob SCHULER who came to SC, and one of Wiesbach. Hans Jacob FEIKEL (could this be FELKEL?) of Waldmohr, HERTZOG from Breitenbach.

Freely given,

I have two questions. First, we have an old (early 1800's) Shuler family Bible with entries beginning with David Madison Shuler, born 1813, continuing through his family line into current generations. It is in dreadful condition, especially since the paper was evidently of very high acid content. Is the Salley Archive interested in getting things like this, and if they do are there any provisions for preserving at least the information? I'm aware that paper conservation is a costly and specialized area; the best that might be possible could be photography of the family listing pages.

Second, does anyone have information about Frederick Syphrett, father of Ann Syphrett, who was born October 10, 1809, died February 9, 1879, and married George Ezekiel Dukes? I have a reference to Frederick as Ann's father, but no information on his wife's name, parents, and so forth.

Thanks,
